COMMITTEE RECOMMENDATIONS

1. *Qualified Zone Academy Bonds (See Legislative Proposal 1):* Based on the recommendation of the Facilities, Technology and Organization Issues Subcommittee, recommend legislation authorizing the State to administer the selection and monitoring provisions of federal legislation (26 U.C.S. 1397E) that allows counties to issue Qualified Zone Academy Bonds (QZABs) on behalf of eligible public schools. The State program would include:

- ◆ Determining which public schools are eligible for QZABs.
- ◆ Soliciting applications, setting priorities, and awarding allocations of QZABs annually.
- ◆ Monitoring and determining eligibility of projects, the amount of federal tax credits available to financial institutions that purchase the bonds, and the terms of the bonds.

The Department of Public Instruction and other appropriate State agencies would administer the program. Use of QZAB funds would be limited to: rehabilitation or repairing the academy's school facility, including but not limited to wiring and other infrastructure improvements related to providing technology. The Department may consider limiting the program to certain designations of school systems, such as Low-Wealth or Small School systems.

2. *IHE Performance Reports (See Legislative Proposal 2):* Recommend legislation requiring the State Board of Education to report to the Joint Legislative Education Oversight Committee on an annual basis beginning December 15, 2000, or to coincide with the federal reporting date once it is adopted.

3. *High School Programs (See Legislative Proposal 2):* Recommend legislation directing the Education Cabinet to study public school, community college, and university programs offered to high school students. These programs would include the cooperative high school program, the adult high school diploma program, advanced placement courses, honors courses, and university courses offered to high school students. The legislation would emphasize the General Assembly's goals of student accountability, program accountability, access, and efficiency. It would direct the Cabinet to examine these programs for overlap, consider which education entity is the most appropriate one to offer each program, consider distance learning options, and examine whether there should be tuition waivers.

In connection with the adult high school program (which is an option for students to obtain the equivalent of a high school diploma), the Cabinet must determine whether:

- ◆ There should be a minimum age for participation.

- ◆ Program participants should be required to take and pass end-of-course tests required of high school students taking the same courses.

In connection with the cooperative high school program (which generally provides advanced courses not offered by a local high school), the Cabinet must:

- ◆ Evaluate the recent recommendations made to the Joint Legislative Education Oversight Committee by the State Board of Education and the State Board of Community Colleges.
- ◆ Determine whether students should receive weighted credit on their high school transcripts for classes taken at community colleges.
- ◆ Determine whether this program is an appropriate venue for developmental courses.

The legislation would require the Cabinet to report to the Joint Legislative Education Oversight Committee by November 15, 2000.

ARTICLE 12H.
Joint Legislative Education Oversight Committee.

§ 120-70.80. Creation and membership of Joint Legislative Education Oversight Committee.

The Joint Legislative Education Oversight Committee is established. The Committee consists of 20 members as follows:

- (1) Ten members of the Senate appointed by the President Pro Tempore of the Senate, at least two of whom are members of the minority party; and
- (2) Ten members of the House of Representatives appointed by the Speaker of the House of Representatives, at least three of whom are members of the minority party.

Terms on the Committee are for two years and begin on the convening of the General Assembly in each odd-numbered year. Members may complete a term of service on the Committee even if they do not seek reelection or are not reelected to the General Assembly, but resignation or removal from service in the General Assembly constitutes resignation or removal from service on the Committee.

A member continues to serve until his successor is appointed. A vacancy shall be filled within 30 days by the officer who made the original appointment.

§ 120-70.81. Purpose and powers of Committee.

(a) The Joint Legislative Education Oversight Committee shall examine, on a continuing basis, the several educational institutions in North Carolina, in order to make ongoing recommendations to the General Assembly on ways to improve public education from kindergarten through higher education. In this examination, the Committee shall:

- (1) Study the budgets, programs, and policies of the Department of Public Instruction, the State Board of Education, the Community Colleges System Office, the Board of Governors of The University of North Carolina, and the constituent institutions of The University of North Carolina to determine ways in which the General Assembly may encourage the improvement of all education provided to North Carolinians and may aid in the development of more integrated methods of institutional accountability;
- (2) Examine, in particular, the Basic Education Plan and the School Improvement and Accountability Act of 1989, to determine whether changes need to be built into the plans, whether implementation schedules need to be restructured, and how to manage the ongoing development of the policies underlying these legislative plans, including a determination of whether there is a need for the legislature to develop ongoing funding patterns for these plans;

- (3) Study other states' educational initiatives in public schools, community colleges, and public universities, in order to provide an ongoing commentary to the General Assembly on these initiatives and to make recommendations for implementing similar initiatives in North Carolina; and
- (4) Study any other educational matters that the Committee considers necessary to fulfill its mandate.

(b) The Committee may make interim reports to the General Assembly on matters for which it may report to a regular session of the General Assembly. A report to the General Assembly may contain any legislation needed to implement a recommendation of the Committee.

§ 120-70.82. Organization of Committee.

(a) The President Pro Tempore of the Senate and the Speaker of the House of Representatives shall each designate a cochair of the Joint Legislative Education Oversight Committee. The Committee shall meet at least once a quarter and may meet at other times upon the joint call of the cochairs.

(b) A quorum of the Committee is 10 members. No action may be taken except by a majority vote at a meeting at which a quorum is present. While in the discharge of its official duties, the Committee has the powers of a joint committee under G.S. 120-19 and G.S. 120-19.1 through G.S. 120-19.4.

(c) Members of the Committee receive subsistence and travel expenses as provided in G.S. 120-3.1. The Committee may contract for consultants or hire employees in accordance with G.S. 120-32.02. The Legislative Services Commission, through the Legislative Services Officer, shall assign professional staff to assist the Committee in its work. Upon the direction of the Legislative Services Commission, the Supervisors of Clerks of the Senate and of the House of Representatives shall assign clerical staff to the Committee. The expenses for clerical employees shall be borne by the Committee.

§ 120-70.83. Additional powers.

The Joint Legislative Education Oversight Committee, while in discharge of official duties, shall have access to any paper or document, and may compel the attendance of any State official or employee before the Committee or secure any evidence under G.S. 120.19. In addition, G.S. 120-19.1 through G.S. 120-19.4 shall apply to the proceedings of the Committee as if it were a joint committee of the General Assembly.

11 codified at 26 U.S.C. § 1397E, provides funds for
12 school improvements through taxable qualified zone
13 academy bonds. Ninety-five percent (95%) or more

4 holding the qualified zone academy bonds. It is
5 intended that the qualified zone academy bonds be

7 are instead of interest that otherwise would have

26 proposals may be solicited from qualified zone
27 academies.
- 28 (3) Determining the eligibility of an applicant to be a
29 participating qualified zone academy.
- 30 (4) Awarding the State's allocation of total funds
31 among selected applicants and establishing
32 conditions upon the usage of the allocation. These
33 conditions must include:
- 34 a. Requiring that the bond proceeds be used only
35 for rehabilitating or repairing the public
36 school facility in which the qualified zone
37 academy is located, which may include (i)
38 wiring and other infrastructure improvements
39 related to providing technology and (ii)
40 equipment related to the rehabilitation or
41 repair, but not personal computers or similar
42 technology equipment.
- 43 b. Conditions designed to assure that the
44 allocation is used in a timely manner.

7 carrying out this section.

8 (d) Consultation. -- In reviewing applications and awarding

10 Local Government Commission to determine whether a prospective
11 issuer of qualified zone academy bonds is able to issue or incur
12 marketable obligations.

13 (e) Issuance of Bonds. -- Any bonds designated as qualified
14 zone academy bonds may be issued pursuant to the applicable
15 provisions of and in compliance with the Local Government Bond

24 sale:

4 (8) The State Board of Education and the Department of
5 Public Instruction, in administering G.S. 115C-23."

6 Section 4. Interpretation of Act. (a) Additional
7 method. This act provides an additional and alternative method
8 for the doing of the things it authorizes and is as supplemental
9 and additional to powers conferred by other laws. Except as
10 otherwise expressly provided, it does not derogate any powers now
11 existing.

12 Section 4.(b) Statutory references. References in this
13 act to specific sections or Chapters of the General Statutes are
14 intended to be references to those sections or Chapters as they
15 may be amended from time to time by the General Assembly.

16 Section 4.(c) Liberal construction. This act, being
17 necessary for the health and welfare of the people of the State,
18 shall be liberally construed to effect its purposes.

19 Section 4.(d) Severability. If any provision of this
20 act or its application is held invalid, the invalidity does not
21 affect other provisions or applications of this act that can be
22 given effect without the invalid provisions or application, and
23 to this end the provisions of this act are severable.

24 Section 5. This act is effective when it becomes law.
